INDEX OF SUBJECTS AND AUTHORS

Abscess, lung, following tonsillectomy, Tuberculous ulceration of the bronchus in a case of, 201

Abscesses, pulmonary, Multiple, resulting from blood infection by microörganisms of the proteus group, 182

Accidental pneumoperitoneum as a complication of artificial pneumothorax, 427

Acid-fast bacilli, sources of, Some, 376

Acoustics, pulmonary, Studies on. I. An apparatus for recording respiratory sounds, 353

——, ——, —— ——. II. The transmission of tracheal sounds through freshly exenterated sheep's lungs, 360

Acute subapical versus insidious apical tuberculosis, 153

Adenitis, cervical, Tuberculous, 511

Adhesions, cauterization of, in artificial pneumothorax by the Jacobaeus-Unverricht method of closed pneumolysis, The, 233

Adult tuberculosis, A study of 1000 cases of, and its bearing on diagnosis, 99

Agglutinins, nonspecific, in tuberculosis, Observations on the occurrence of, 223

Allergic response, The testicular, (spermatocyte reaction) in guinea pigs for the diagnosis of tuberculous fluids, 55

American Indians, Tuberculosis among the, 407

Analysis of 1,000 deaths from pulmonary tuberculosis among insured policy-holders, An, 412

Apical tuberculosis, insidious, Acute subapical versus, 153

Artificial pneumothorax, Accidental pneumoperitoneum as a complication of, 427

—— ——, The cauterization of adhesions in, by the Jacobaeus-Unverricht method of closed pneumolysis, 233

Association of tuberculous lymphadenitis and genitourinary tuberculosis, The, 95

Atelectasis, pulmonary, massive, Haemoptysis in tuberculosis followed by, 310

Bacilli, acid-fast, sources of, Some, 376

Bacillus Calmette-Guérin (BCG), A study of. Biological characteristics, cultural "dissociation" and animal experimentation, 9

——, tubercle, filterability of the granular phase of the, Experiments on the, 483
